**HOW TO MAKE A REFERRAL TO OUR CLINIC**

Thank you for referring your patient/client to our clinic for their care.

The referral process is quite simple and below are listed a few steps that will better assist our clinic staff to initiate the referral process.

1. Contact the NHS-Hepatitis C Care Clinic to obtain a referral form or print a referral form from the NHS Website at:  
<http://www.niagarahealth.on.ca/services/hepatitis-c-care>
2. Please indicate if the client has given permission for our clinic staff to leave a voicemail or text message to inform them of the appointment date and time to ensure that confidentiality for our mutual client is maintained.
3. When the Hepatitis C Clinic has received the referral we will schedule an appointment, notify the client and fax to your office the appointment date and time.
4. When we fax to your office the appointment details we will indicate if we have been unable to contact our client with appointment details.
5. Please fax any medical information available to assist our Medical Team to better know our new client prior to their first visit.

If you have any questions or require further information please do not hesitate to contact us.

Thank you

*The Hepatitis C Care Clinic Team*
