

Hospitalist NIAGARA HEALTH

The Department of Medicine at Niagara Health seeks a highly skilled and motivated physician with a track record for providing compassionate and efficient care to join the Hospitalist Service. Working closely with our interdisciplinary team, hospitalists are responsible for providing care to patients on the acute inpatient medical service. The program is fully supported by a General Internal Medicine program with Critical Care support.

Niagara Health is a regional healthcare provider with multiple sites and a growing network of community-based services. Our team is made up of more than 4,800 employees, 600 physicians and 850 volunteers who we count on to deliver extraordinary caring to every person, every time.

We provide a wide range of inpatient and outpatient services to more than 450,000 residents across Niagara, including Acute Care, Cancer Care, Cardiac Care, Complex Care, Emergency and Urgent Care, Kidney Care, Long-Term Care, Mental Health and Addictions, Stroke Care and Surgical Care.

Our Accreditation with Exemplary Standing is a clear demonstration of our team’s commitment to the highest safety and quality standards. As a community-based academic centre, teaching and learning, research, innovation and partnership are propelling us as we imagine a healthier Niagara.

The transformation of healthcare service delivery across Niagara continues with planning underway to build an additional ultramodern hospital in South Niagara to provide accessible and quality healthcare to residents of the Southern Region. Niagara Health is positioned, by virtue of its geography and regionally distributed resources, to exemplify the best of regional capacity with local service delivery. Strong academic partnerships are a priority for the NHS as the organization builds on a robust relationship with McMaster University’s Michael G. DeGroot School of Medicine.

The Practice	<ul style="list-style-type: none"> • The goal of the program is to provide a patient and family-centered model of quality care from admission to discharge using an interprofessional approach. • Programs are based out of our Niagara Falls and Welland Sites.
Hospital	<ul style="list-style-type: none"> • Inpatient program support to: <ul style="list-style-type: none"> - Unassigned Medical, - “ER admit no bed”, - Appropriate transfers from other services, • Each Hospitalist will provide care for approximately 20 acute patients a day. • Hospitalists will rotate on call with overnight call largely taken from home <p>An Extended Class Nurse Practitioner participates in the Program on the Complex Continuing Care Units</p>
The Practice:	<ul style="list-style-type: none"> • Competitive compensation with no overhead expenses and stipend provided for overnight call
Academic Affiliations	<p>The McMaster University’s Michael G. DeGroot School of Medicine has expanded to a regional campus in Niagara, which is located at Brock</p>

	<p>University. Students at the Niagara Regional Campus complete their clinical rotations in one of the six area hospitals with teaching done by the highly skilled and motivated hospital physicians.</p> <p>Opportunities for strengthening and building strong academic partnerships are a priority for Niagara Health as the hospital has expanded into this new facility.
