SCOPE (Seamless Care Optimizing the Patient Experience) has expanded to enhance access to hospital and other community services in Niagara. Through a single point of access, Family Physicians and Nurse Practitioners will have a local, virtual interprofessional care team that supports primary care providers through a single point of access. Family physicians and nurse practitioners registered with SCOPE Niagara can connect to an internist, registered nurse, radiologist, and home and community care services.

RSVP to one of the launch sessions above to learn more about SCOPE Niagara to start saving time and improving care for your patients.
