## HOSPITAL INFORMATION SYSTEM (HIS)

5. **Add Slots window** will appear. Add the “**Day Begin**” and “**End date**” (*this will be the slot start and end time*). Edit the **time interval** if appropriate. Once a day begin and end time has been entered, the schedule on the right of this window will update to the times that you have entered.

Click on the plus box next to All Slot Types to view all slot types that are available. Search for the slot type you are trying to add. Once slot type is found, “**drag and drop it into the schedule on the right.**” “**Right-click**” on the “**slot,**” and select “**Slot Properties.**”

6. **Slot Properties** window will appear. Adjust the **slot duration** to match the duration that you entered in the **day begin** and **end time**. (In this example, *or day begin was 1600, and day end was 1700 so the duration for the slot should be 1 hour – you can put 1 hour or 60 minutes as the duration*). Press **OK** when the duration has been updates and **Slot Properties** box will **disappear**.
