

## TASKING AND DOCUMENTING NRS/FIM (HDS) HOSPITAL INFORMATION SYSTEM (HIS)

### INTERPROFESSIONAL REHAB/ALLIED HEALTH

---

The NRS/FIM documentation completed in Millennium/Oracle is done within the appropriate NRS/FIM PowerForm. The clinician is still responsible to input their data for their NRS/FIMs using the **Clarity web product**.

- The **Admission** NRS/FIM Tasks are automatically assigned using a custom rule that triggers when patients are admitted or transferred with a level of care marked as **HDS Rehab High Intensity**.
  - o These tasks are assigned to the Physiotherapist Therapist (PT), Occupational Therapist (OT), and the Rehab Nurse.
- For those who have the NRS/FIM Admission PowerForm Tasked to them in their task list (Multi Patient Task List, Care Compass, Rehab Organizer). They must open the PowerForm from their task list and **NOT** AdHoc to document.
- The Speech-Language Pathologist (SLP) will need to AdHoc the PowerForm manually if required.
- The NRS/FIM Discharge, Service Interruption and Progress PowerForms can all be AdHoc'd by any clinician as needed.

-  NRS/FIM Admission
-  NRS/FIM Discharge
-  NRS/FIM Service Interruption
-  Progress FIM Scores

## TASKING AND DOCUMENTING NRS/FIM (HDS) HOSPITAL INFORMATION SYSTEM (HIS)

- NRS Sociodemographic
- NRS Administrative
- Health Characteristics
- NRS CIHI Data
- Eating Score
- Grooming Score
- Bathing Score
- Upper Body Dressing Score
- Lower Body Dressing Score
- Toileting Score
- Bladder Management Score

- The FIM scores are calculated directly within the PowerForms. Specific fields and DTAs will activate based on selected options, with the score appearing at the bottom of the relevant sections.

## TASKING AND DOCUMENTING NRS/FIM (HDS) HOSPITAL INFORMATION SYSTEM (HIS)

DTA Activated based on selected options:

Independent/Modified independence  
 Setup/Supervision  
 Assistance  
 Does not occur

Other Modification Needed,  
Uses or Applies Independently

Supervision or Setup Needed

- Apply assistive device(s)
- Apply compression garment
- Apply orthosis/brace
- Apply prosthesis
- Coaxing
- Cueing
- Gather clothes
- Standby prompting

Score:

**\*Note:** The score at the bottom of each section is NOT to be selected as it auto-calculates based on the DTA responses above in each section.

Do not change the functional independence measure score below. If you disagree with the score that was generated, review your documentation.

Functional Independence Measure Upper Body Dressing

- Complete independence - 7     Supervision or setup - 5     Moderate assistance - 3     Total assistance - 1  
 Modified independence - 6     Minimal contact assistance - 4     Maximal assistance - 2     Does not occur

**\*\*Reminder:** Once the PowerForm has been submitted in PowerChart, the NRS/FIM information must also be manually entered into the **Clarity web product** to ensure all data is captured and submitted to CIHI.
