

Oncology – Unplanned Inpatient with Treatment

Targeted users: Admit flow charge nurse, Oncologist, Inpatient charge nurse, Inpatient clerk, Pharmacist Outpatient Oncology, Oncology Inpatient Nurse & Oncology Ambulatory Nurse

Admit flow charge nurse

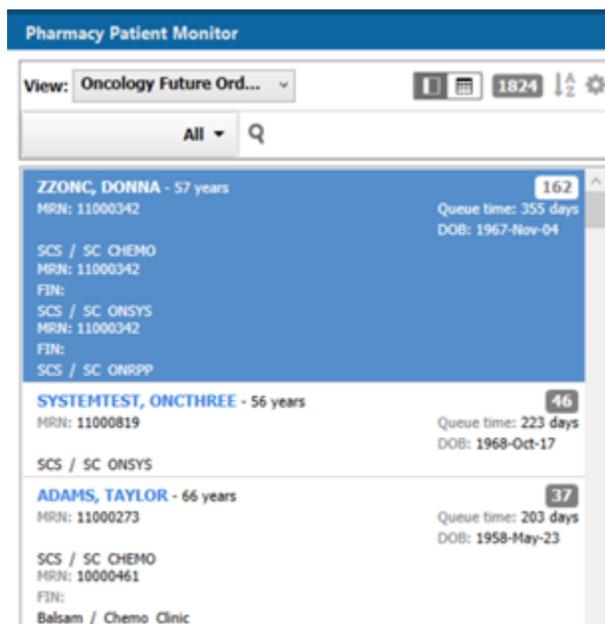

1. Log into PowerChart and search for the patient
2. Communicate patient status with oncologist via message centre

Oncologist

1. Patient is fit for treatment, see patient on the floor. Communicate plan to Admit flow charge nurse.

WFCC pharmacist

1. Log into PowerChart and find the patient in the **pharmacy patient monitor** list

The screenshot shows the 'Pharmacy Patient Monitor' interface. At the top, there is a 'View:' dropdown menu set to 'Oncology Future Ord...' and a search bar with 'All' and a magnifying glass icon. Below this, a list of patients is displayed. Each patient entry includes their name, age, MRN, and queue time. The first patient is ZZONC, DONNA, 57 years old, with MRN 11000342 and a queue time of 355 days. The second patient is SYSTEMTEST, ONCTHREE, 56 years old, with MRN 11000819 and a queue time of 223 days. The third patient is ADAMS, TAYLOR, 66 years old, with MRN 11000273 and a queue time of 203 days. The interface also shows various icons for printing, refreshing, and settings.

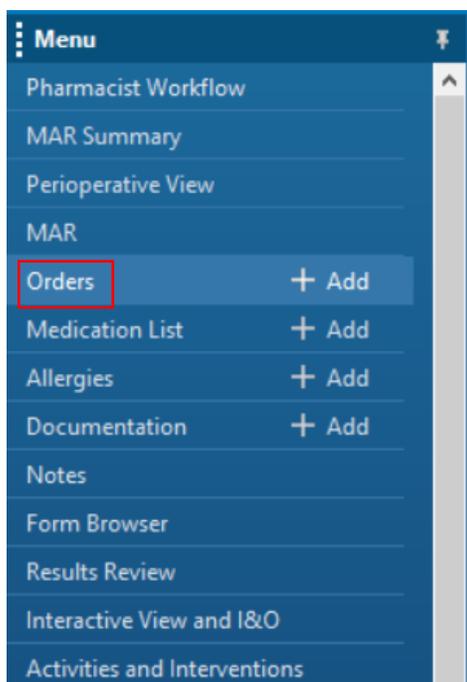

Patient Name	Age	MRN	Queue Time
ZZONC, DONNA	57 years	11000342	355 days
SYSTEMTEST, ONCTHREE	56 years	11000819	223 days
ADAMS, TAYLOR	66 years	11000273	203 days

- Click on the patient's name to open their chart. Select the correct Recurring encounter

- Modify Chemo order. Click on Orders menu from table of contents

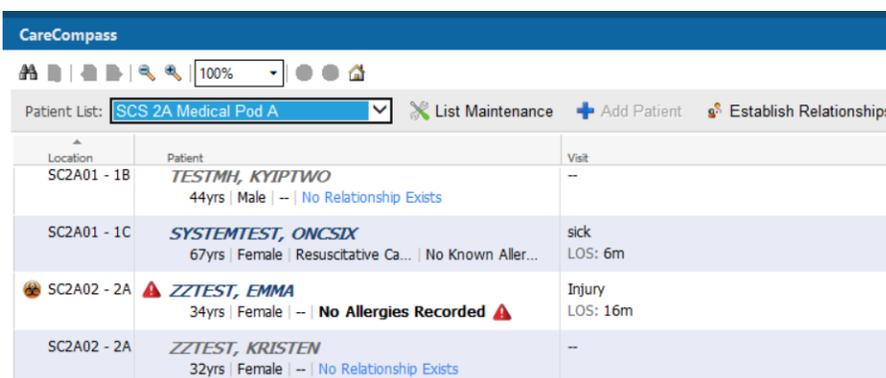

- Click on Cycle 1 of the systemic treatment phase of the power plan. Scroll down to Treatment Regimen sub-header and then right click on the Pembrolizumab

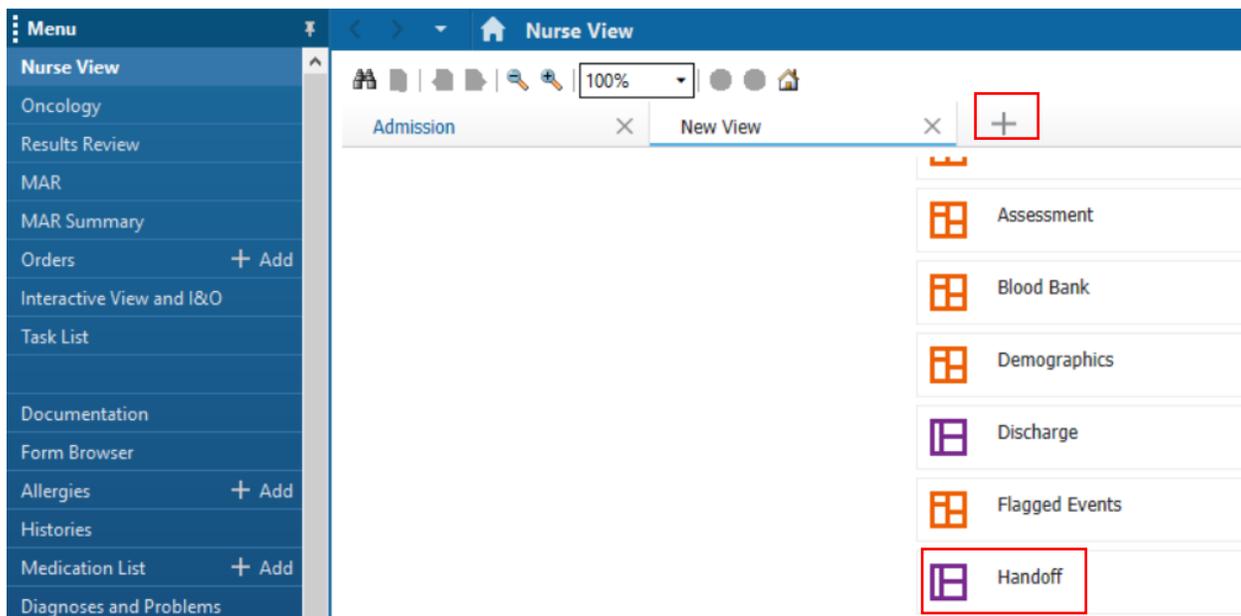

5. Select Modify. In the ordering physician window, type the name of the MRP
6. Click the drop-down arrow to the right of "ONC Payor Source" order field. Select "NDFP"
7. Repeat the same steps for Gemcitabine and Carboplatin
8. Click Orders for signature and Sign. Refresh the screen

Oncology Inpatient Nurse

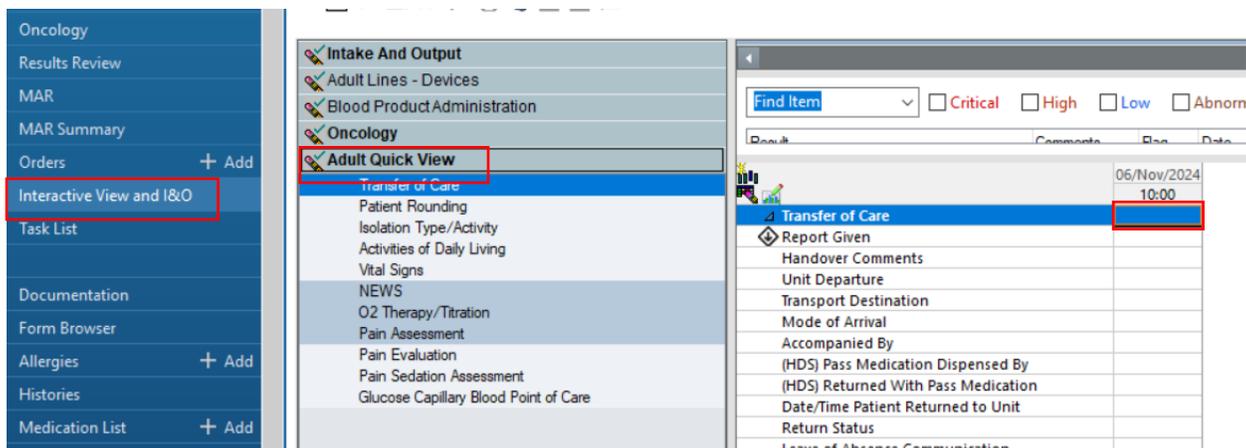

1. Log into PowerChart and click on patient's name from the CareCompass to open their chart

- From within the Nurse View tab, click the "+" sign next to the admission tab. Select the Handoff tab

- Navigate through components and review. Add appropriate details
- Click the "Interactive View and I&O" from the table of contents. Select the "Adult Quick View" band and double-click the box next to 'Transfer of Care'

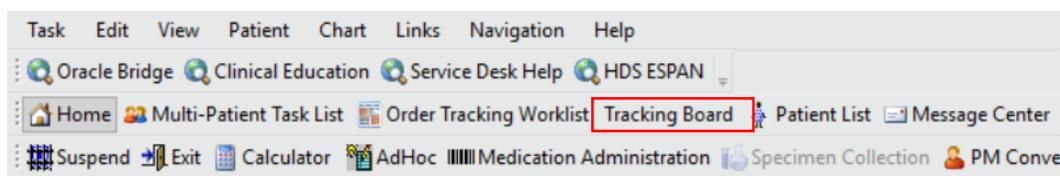

- Complete all the appropriate fields (all required fields will be highlighted in yellow). Then click the green check mark to sign

- Coordinate patient transport. Put inpatient encounter on leave/hold for a few hours during infusion treatment.

Oncology Ambulatory Nurse

- Log into PowerChart and click the **Tracking board** icon from the organizer toolbar

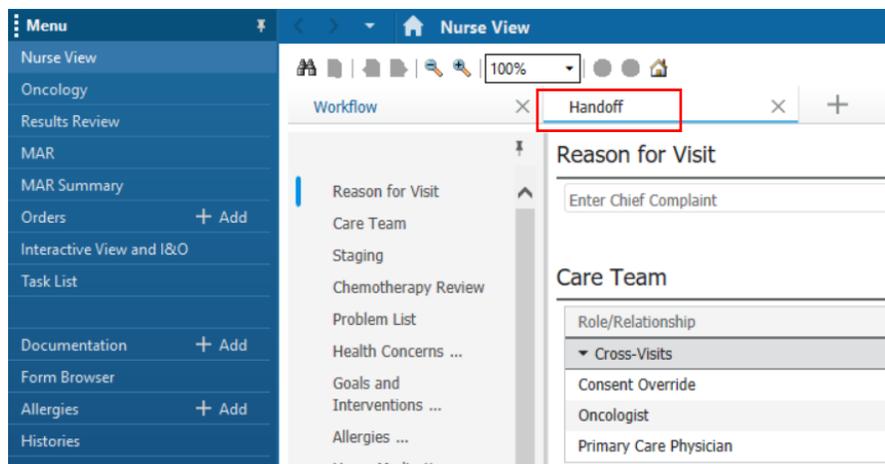

- Find the relevant patient. In the Location column, double-click the "IV waiting room" right next to the patient's name to change the patient's location

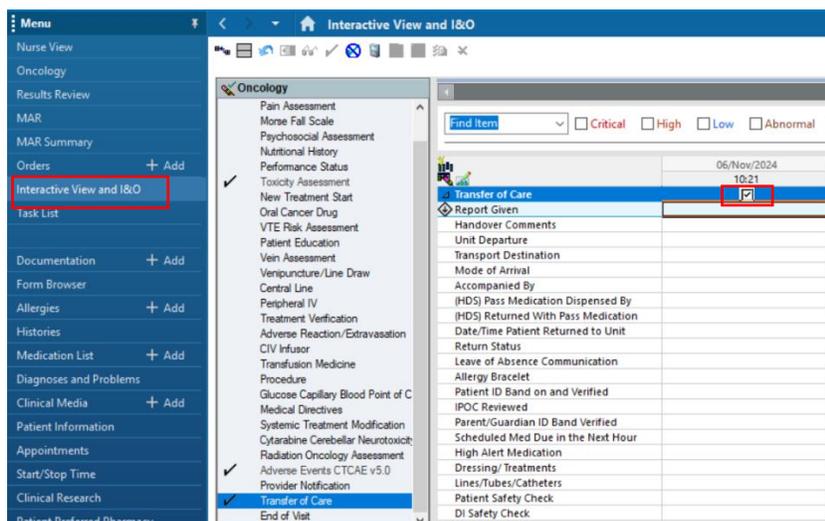

Tracking Board	
Infusion Therapy Infusion Therapy Check Out	
Patient:	Filter: <None>
IV Waiting Room	ZZONC, PETER
IV Waiting Room	ZZONC, LUCY
IV Waiting Room	ZZONC, RINGO
IV Waiting Room	ZZONC, GEORGE

- Select the correct Pod and click OK
- Patient gets infusion therapy at WFCC

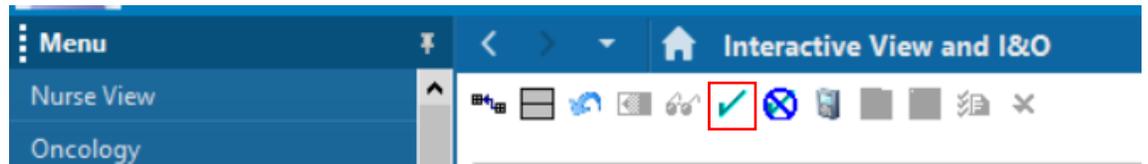

5. Upon completion of the treatment, right click the patient's name. Select Open patient chart > Nurse View
6. Select the Handoff tab and review the details. Add appropriate details

7. Click the "Interactive view and I&O" from the table of contents. Select the "Oncology" band. Select 'Transfer of Care' section.

8. Complete all the appropriate fields (all required fields will be highlighted in yellow). Then click the green check mark to sign

9. Submit patient transport request back to inpatient unit via Care Aware.
