

## PERIOP – DISCHARGE PROCESS HOSPITAL INFORMATION SYSTEM (HIS)

### PERIOP – Phase II Recovery/Depart (incl. Endo + APU)

1. Open the patient's chart from Perioperative Tracking Board
2. Complete nursing transfer of care
  - Review Nursing Mpages: Perioperative Summary
  - Document TOC in IView:
3. Open the Phase II Recovery Record
  - Document Case Times – Arrival Time

The screenshot displays the 'SC Phase II Recovery - OR' interface. On the left, a 'Documentation' pane shows 'SC Recovery Segment Group - OR' and 'Case Times'. The main area contains three time-tracking fields: 'In Day Surgery Phase II', 'Discharge from Day Surgery Phase II', and 'Ready for Day Surgery Phase II Discharge'. Each field has a dropdown menu and a 'use previous' button. A 'Delays' dropdown is also visible at the bottom right.

4. Update the Perioperative Tracker – Bay/Nurse column (if applicable)
  - Double click on the Bay/Nurse column to free text the bay # and RN name
5. Initiate appropriate phase(s) of SURG and/or ANES orders
  - Discontinue any lingering ANES: Adult Phase I Recovery Orders  
**Note: Notify PARR if they forgot to do this as this is a patient safety concern**
  - Initiate SURG: Post Operative Phase if not already done
6. Provide nursing care, documenting in IView as necessary until patient meets criteria for discharge
  - Go to Interactive View and I&O (IView), suggested IView documentation

Problem List

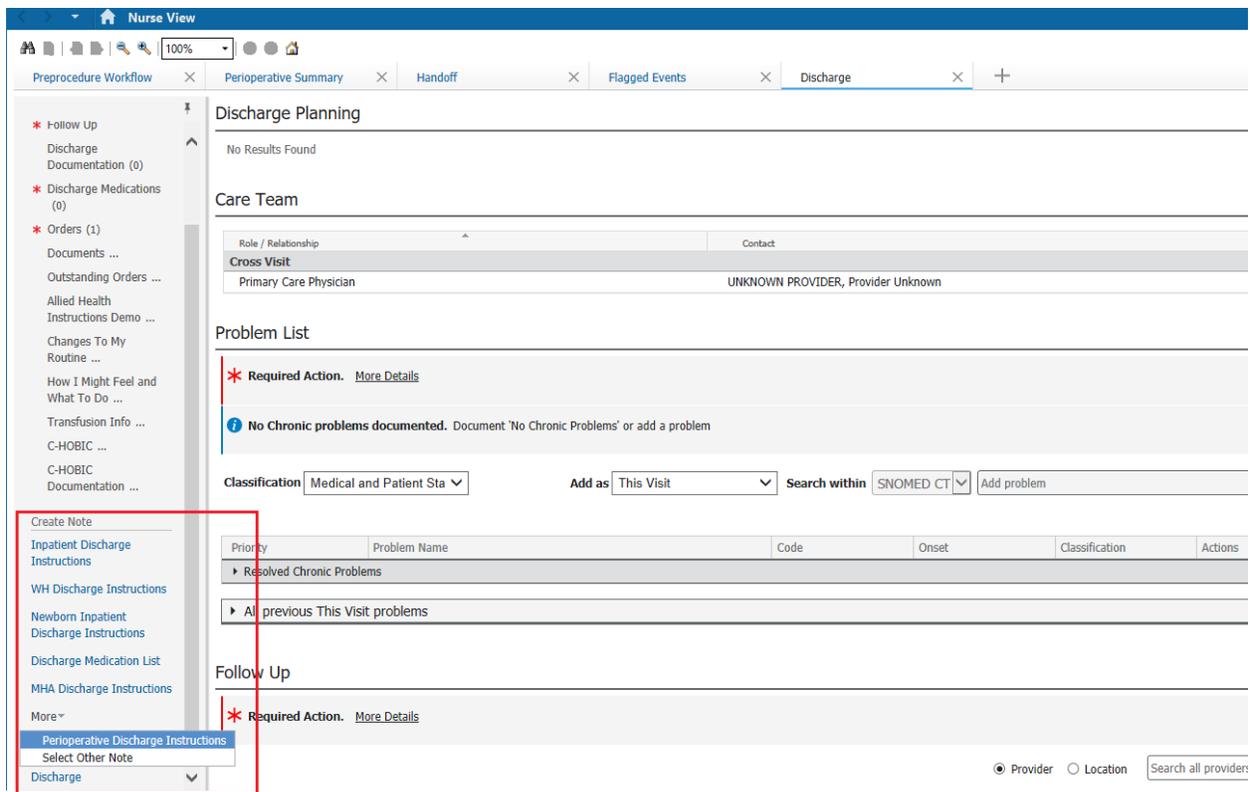

- \* Required Action. [More Details](#)
- ! No Chronic problems documented. Document 'No Chronic Problems' or add a problem

Classification: Medical and Patient Sta

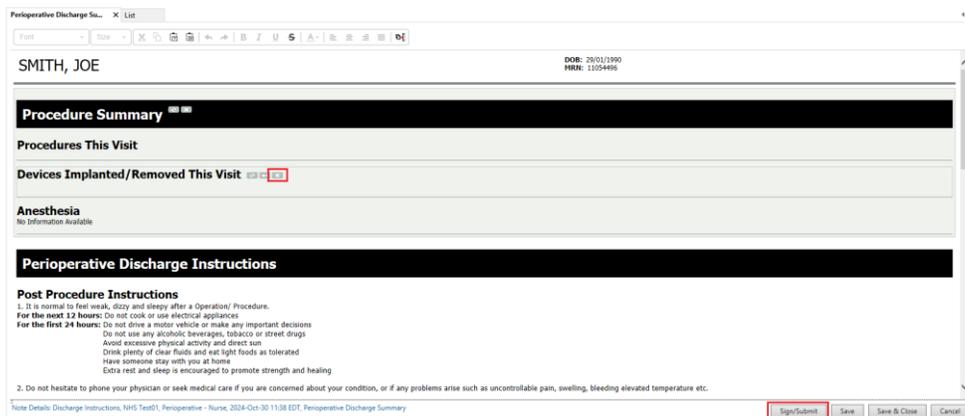

Add as: This Visit

How I Might Feel and What To Do ...

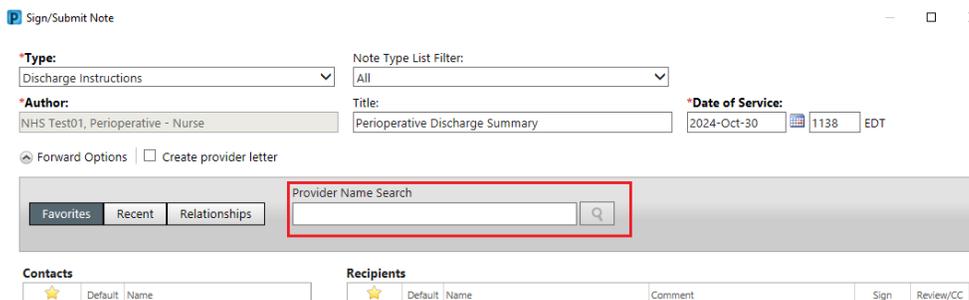

- Navigate to the “How I might feel and what I might do” - free text in the text box
  - Ensure that all pertinent information is populated within the MPage. The red asterisk items are required but can be bypassed if not populated. Provider should be responsible for performing a discharge meds rec, adding follow-ups, and a discharge order.
6. Click on the “**Perioperative Discharge Instructions**” on the left gray panel under ‘Create Note’. If it is not face up, click on More drop-down find the discharge instruction
- If required elements are populated, then no pop up appears. If missing required elements, then you’ll have to give a reason why they aren’t populated

7. In the Perioperative Discharge Summary, 'X' out any incomplete segments, add any last changes and click Sign/Submit. Make sure that type is set to discharge instructions

- In the Sign/Submit note pop up, click on 'Sign & Print'. You can attach a provider by typing in the provider's name in the Provider Name Search field.
