

Entering and Cancelling Food Allergies

To enter a new food allergy into the patient's chart:

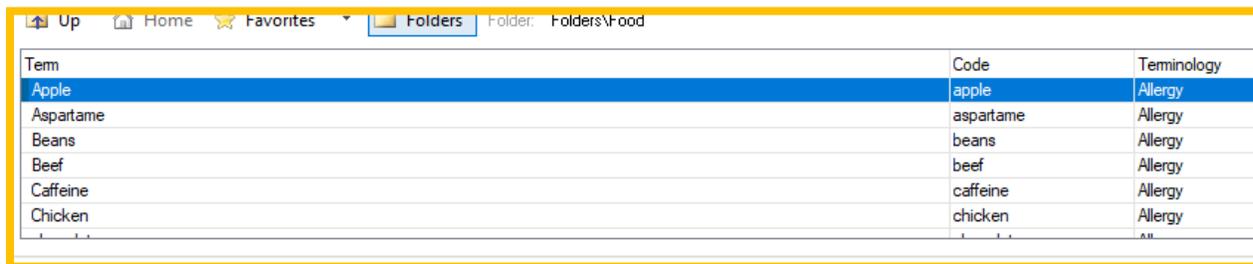

Go to the Allergies tab

From the following screen, click on **Food**

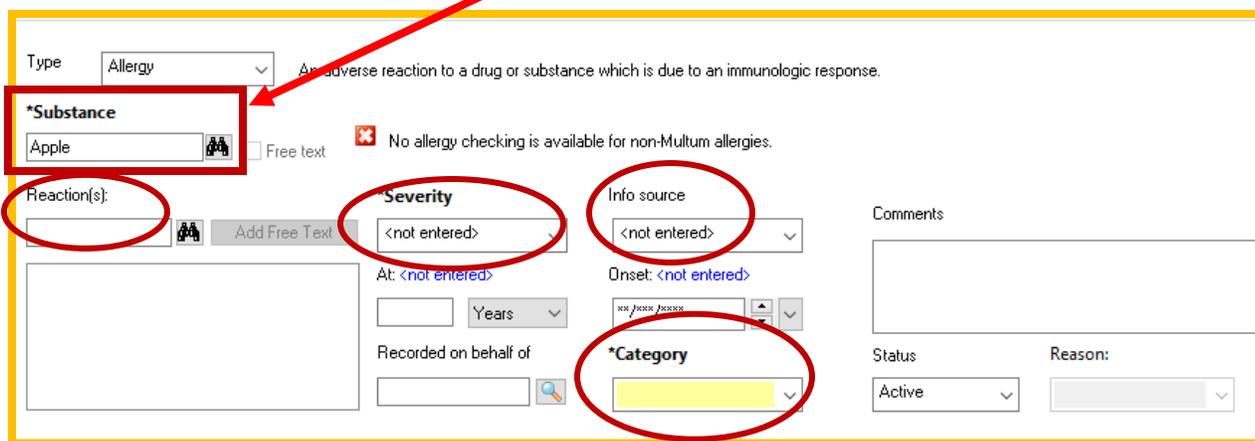

Double click on the allergy from the Food dictionary

Term	Code	Terminology
Apple	apple	Allergy
Aspartame	aspartame	Allergy
Beans	beans	Allergy
Beef	beef	Allergy
Caffeine	caffeine	Allergy
Chicken	chicken	Allergy

The selected allergy will then appear in the Substance box:

Type: Allergy

An adverse reaction to a drug or substance which is due to an immunologic response.

***Substance**: Apple

Reaction(s):

Severity: <not entered>

Info source: <not entered>

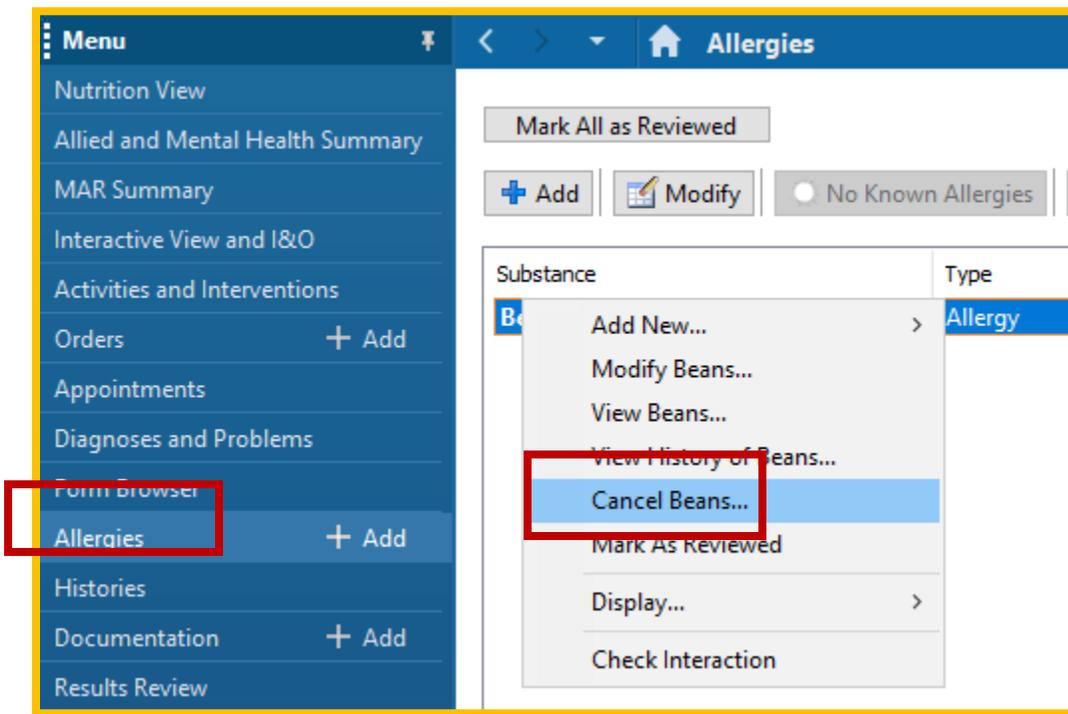

***Category**: Food

Add reaction, source, severity etc if known
From Category, choose "Food".

Click OK

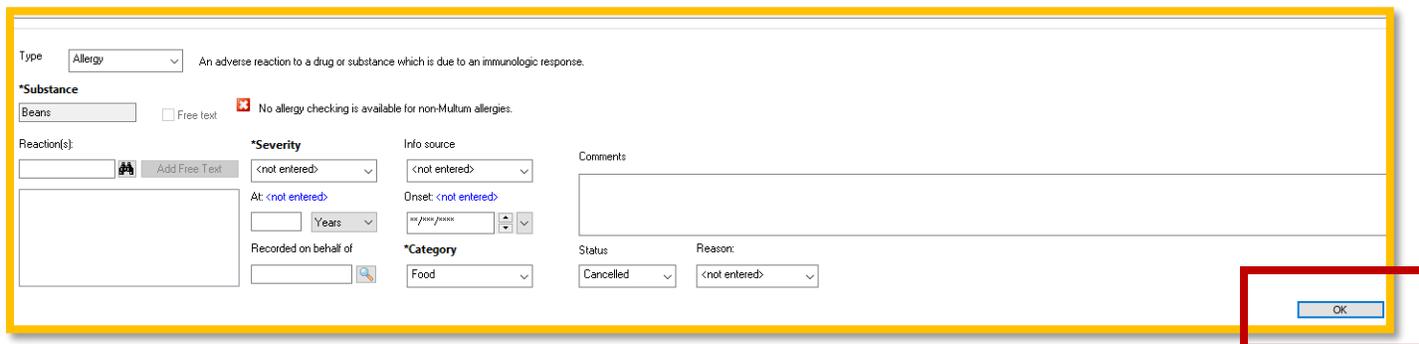

To Cancel an allergy:

Go to the allergy list

Right click on the specified allergy highlighted in blue
Select Cancel "X"

The following screen will populate:

Click OK

TIP SHEET

HOSPITAL INFORMATION SYSTEM (HIS)

The allergy will then disappear from the allergy list.

If you change your filter to “Inactive”, it will show the allergy history with a red line through it:

Mark All as Reviewed

[+ Add](#) [Modify](#) [No Known Allergies](#) [No Known Medication Allergies](#) [Reverse Allergy Check](#) Filter by status Inactive

Substance	Type	Category	Severity	Reactions	Interaction	Comments	Source	Cancelled	Est. Onset	Updated By
Beans	Allergy	Food						Cancelled	30/Oct/2024 1...	30/Oct/20...

If a Food allergy is not found on the Food list, go to Dietary Special Request and type the information
This will print to the diet office
