

STAT Collection Notification

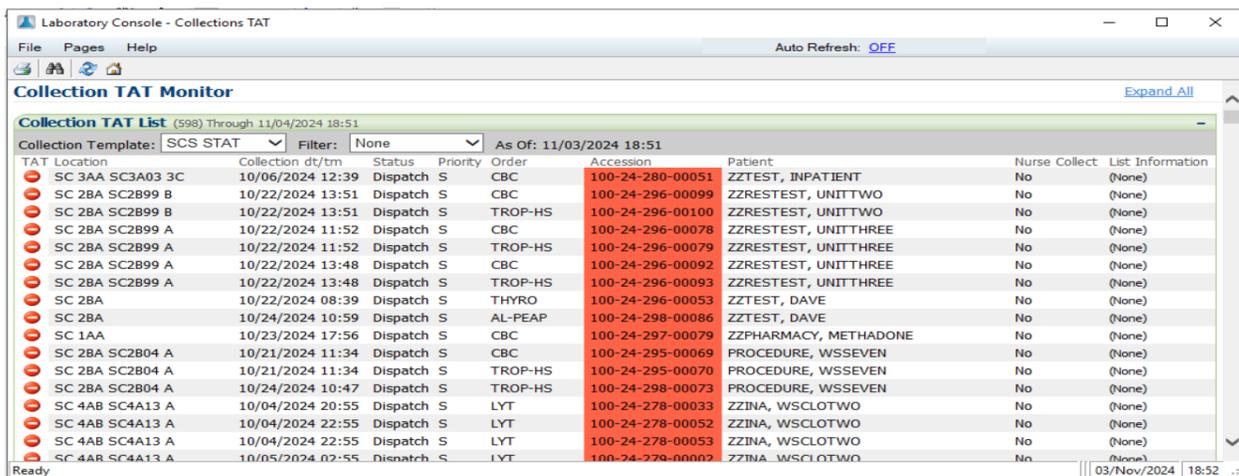

1. Click on Laboratory Console on App Bar.

2. From the pull down menu, select the template for the location that you are working at (SCS STAT, NFS STAT or WS STAT).

3. Once the template opens any pending STAT collections will be populated.

TAT Location	Collection dt/tm	Status	Priority	Order	Accession	Patient	Nurse Collect	List Information

Any overdue STAT (15 minutes from the time of order) will have the accession number highlighted.

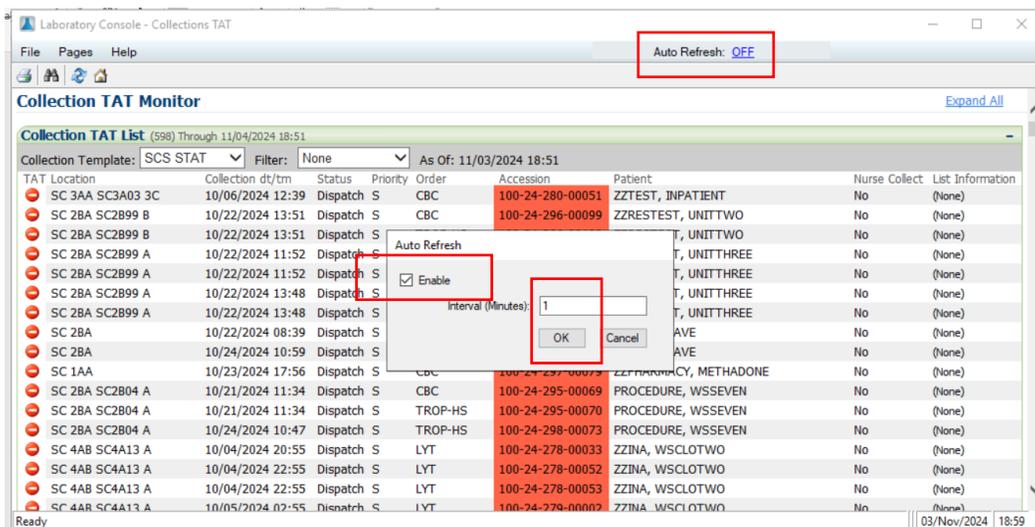

Once collected the STAT order will disappear from the list.

Important Information

You MUST enable the auto refresh setting each time you log on or STAT orders will not populate unless you manually click refresh (see instructions below).

Instructions to enable Auto-Refresh

1. Once the template loads”
 - a. Click on Auto Refresh: OFF.
 - b. Ensure Enable box is checked off.
 - c. Enter desired interval for auto-refresh and click on.

2. The STAT collection monitor is now set to auto refresh every minute.
