Entry"

**Decision** [29142]

Description: Does prescriber know who will complete the consult?

Comments: Prescribers will often know the name of the "Consulting Physician"/ Consulting Prescriber. The prescriber placing the Consult order should fill out the Consulting Physician field in this case.

In cases where the name of the Consulting Prescriber isn't known, the Consulting Physician field can be left blank. The Unit Clerk will receive a task to work the Consult.

**Swim Lane:**

Role(s): Consulting Prescriber [Custom]

Department(s):

Security Position(s): Physician - Hospitalist

**Work Step [29138]**

Description: Open patient's chart from Prescriber Handoff, select list (patient or care team list), using Consult relationship type list.

Comments:

**Work Step [29122]**

Description: Assess patient, place orders if appropriate

Step Impact: Financial

Comments: Academic Considerations:

For ordering, refer to "Prescriber Workflow - Resident and Advance Practice Prescriber Order Entry"

In ER, consulting prescriber needs to speak to the ER nurse to let them know that they've seen the patient.

This is because we need to capture an accurate arrival time for ER funding.

**Work Step [29168]**

Description: Complete Consult Note documentation
