Introduced By: WS 5

Validated By: WS 7

Swim Lane: None

Department(s):

Security Position(s):

Start/Stop [3]

Description: Receives notification of the tasking on Multi Patient Task List (MPTL)

Comments: Per client policy and staff capacity, Lactation may see every patient or only those that have consult order.

Work Step [6]

Description: Access patient chart utilizing the Multi-Patient Task List or Tracking Board.

Comments: Consult status will be viewable from Tracking Board.

Work Step [11]

Description: Review existing lactation documentation in MPage and Results Review.

Future State: Women and Babies - Acute - Lactation Consultant

Cerner Workflow ID: 14077 (v. 11.0) Client Workflow ID: 704

Last updated by Kelly Dickey, Mar 31, 2024 11:30am (UTC -4 hours)

Comments: Other helpful spots in chart to review:

- Histories components
- Antepartum Intake Form/OB Patient History form
- Birth Plan/Requests
- Previous lactation documentation from Results Review

Work Step [7]

Description: Visit patient and conduct consult.

Document [18]

Description: Document breast assessment in maternal chart and begin education in IView.

Step Impact: Financial

Comments: If mother is no longer a patient in the hospital, user may leverage newborn chart.

Lactation supplies and lactation consultant time charges will be generated based on documentation in IView or via orders.

System [14]

Description: Leverage use of Baby Friendly Report and Birth Log Report to track lactation-related data

Document [26]

Description: Complete Consult Order/Task.

Comments: Typically on mother's chart, but whichever chart is appropriate

System [27]

Description: Breastfeeding count and appropriate values flow to Intake & Output in newborn's chart.

Document [8]

Description: Document feeding assessment on newborn's chart in Newborn Breastfeeding Assessment.

Comments: If newborn is no longer a patient in the hospital, user may leverage maternal chart.

Future State: Women and Babies - Acute - Lactation Consultant

Cerner Workflow ID: 14077 (v. 11.0) Client Workflow ID: 704

Last updated by Kelly Dickey, Mar 31, 2024 11:30am (UTC -4 hours)

Work Step [10]

Description: Use Related Records to navigate between mother and baby charts as needed.
